

BIRTHDAYCOIN

A PRICELESS BIRTHDAY GIFT

- **Total number of issues:** 10,000,000,000 (10 billion pieces)
- **Contract address:** [0x37dd17d77f9e8f5d5fe924c05f49ef70ab5bedb0](https://www.etherbase.org/contract/0x37dd17d77f9e8f5d5fe924c05f49ef70ab5bedb0)

ABOUT

BirthdayCoin is a digitally encrypted commemorative coin based on blockchain technology (Ethereum ERC20).

Everything has a new life... birthday is every day! Your family, friends, pets and yourself. This is probably the most inevitable commemoration day in the universe.

BirthdayCoin was born in an accidental and wonderful inspiration. At someone's birthday party, a programmer who was troubled by not preparing a birthday present released the encrypted commemorative coin and made him the focus of the party.

Since then, BirthdayCoin has become popular among friends and family of this programmer. It is a perfect birthday present. For more and more social activities, the need for gifts, BirthdayCoin perfectly solves people's trouble in choice of gifts, or the embarrassment of not being able to afford a valuable gift.

In addition to the broad, natural consensus of the value of BirthdayCoin, more importantly, it can open the link between the virtual world and the real world, and let a gift in the virtual world become a physical object through the blockchain.

Let's think about it: Everyone in the future will have at least one BirthdayCoin of their own. We can make every birthday ceremony and gift become a mixture of virtual and reality, so that the virtual gift is no longer illusory, let the encryption technology further into our world of emotion.

COMMUNITY

BirthdayCoin is not developed and operated by entities. Currently, the main holder of BirthdayCoin is the programmer who released it and his good friends. They formed the "Birthday Friends Community" spontaneously and voluntarily gave 100% of the BirthdayCoin to others, and also to the quality merchants and project parties who are willing to cooperate.

Every four years, the BirthdayCoin community will vote for the most outstanding contribution to the birth of BirthdayCoin as the chairman of the community, and responsible for community-related matters.

Chairman of the first (2018-2022): Qi Xin (Telegram: [@marsblue2002](#))

EXCHANGE

- **EX.FISH** - BIRTHDAY/FISH

Special thanks to the FishChain team for their support of BirthdayCoin! They have used BirthdayCoin in the game and have opened BIRTHDAY/FISH trading pairs. The BirthdayCoin community has put in 100 million BirthdayCoins for this purpose.

welcome more exchanges to register BirthdayCoin!

COOPERATION

In addition to being directly presented as a birthday gift, BirthdayCoin also has a wide range of applications in the fields of gifts, birthday services, games, and so on.

We welcome blockchain developers, cake shops, birthday gift companies, wineries and other commercial organizations to use BirthdayCoin (can be used as points, vouchers, etc.)! We will offer you all kinds of magical ideas for free and link your brand and advertisements on our website.

DONATION

Although the BirthdayCoin is a free gift, we also accept donations in view of the daily maintenance of the community and in order to better promote BirthdayCoin, and sincerely thank you for your support, use and dissemination of the BirthdayCoin. Please leave your birthday and e-wallet address in the email, I will return your goodwill and support as much as you can, and maybe there will be surprises.

Donation address: 0x7B691847ec136AB732B38e456Ff7533c7d47Dd8d

Note: Currently only support Ethereum donation
